Forward Looking Statements, Cautionary Note & QP Statement

Forward Looking Statements

This presentation may contain certain information that may constitute "forward looking information" and "forward-looking statements" within the meaning of applicable Canadian securities laws and United States Private Securities Litigation Reform Act 1995, respectively. Forward-looking statements may include, but are not limited to, statements with respect to future events or future performance, management's expectations regarding drilling schedules, expected mining sequences, timing of royalty expectations, business prospects and opportunities. Such forward looking statements reflect management's current beliefs and are based on information currently available to management. Often, but not always, forward looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "predicts", "projects", "intends", "targets", "aims", "anticipates" or "believes" or variations (including negative variations) of such words and phrases or may be identified by statements to the effect that aims, anticipates believes certain actions "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved. Forward looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of EMX to be materially different from any future results, performance or achievements expressed or implied by the forward looking statements. A number of factors could cause actual events or results to differ materially from any forward looking statement, including, without limitation: uncertainties relating to the fluctuations in the prices of the primary commodities that drive our royalty revenue; fluctuations in the value of the Canadian and US dollar, and any other currency in which EMX incurs expenditures or generates revenue; changes in national and local government legislation, including permitting and licensing regimes and taxation policies; regulations and political or economic developments in any of the countries where EMX holds properties or a royalty or other interest are located; exploration and development schedules; the level and area of mining by third parties which impact the level of royalties paid; influence of macro-economic developments; business opportunities that become available to, or are pursued by EMX; litigation; title, permit or license disputes related to EMX's interests or any of the properties in which EMX holds a royalty or other interest; excessive cost escalation as well as development, permitting, infrastructure, operating or technical difficulties on any of the properties in which EMX holds a royalty, stream or other interest; rate and timing of production differences from resource estimates; risks and hazards associated with the business of development and mining on any of the properties in which EMX holds a royalty or other interest, including, but not limited to unusual or unexpected geological and metallurgical conditions, slope failures or cave-ins, flooding and other natural disasters or civil unrest; and the integration of acquired businesses or assets. The forward looking statements contained in this presentation are based upon assumptions management believes to be reasonable, including, without limitation to assumptions relating to: the ongoing operation of the properties in which EMX holds a royalty, or other interest by the owners or operators of such properties in a manner consistent with past practice; the accuracy of public statements and disclosures made by the owners or operators of such underlying properties; no material adverse change in the market price of the commodities that underlie the asset portfolio; no adverse development in respect of any significant property in which EMX holds a royalty or other interest; and the absence of any other factors that could cause actions, events or results to differ from those anticipated, estimated or intended. However, there can be no assurance that forward looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Readers are cautioned that forward-looking statements are not guarantees of future performance. EMX cannot assure readers that actual results will be consistent with these forward looking statements. Accordingly, readers should not place undue reliance on forward looking statements due to the inherent uncertainty therein. For additional information with respect to risks, uncertainties and assumptions, please also refer to the "Risk Factors" section of our most recent Annual Information Form filed with the securities regulatory authorities on SEDAR at www.sedar.com, our most recent Form 20-F filed with the Securities and Exchange Commission on EDGAR at www.sec.gov, as well as our most recent annual and interim MD&As. The forward looking statements herein are made as of the date of this presentation only and EMX does not assume any obligation to update or revise them to reflect new information, estimates or opinions, future events or results or otherwise, except as required by applicable law.

Cautionary Note to US Investors Regarding Reserve and Resource Reporting Standards

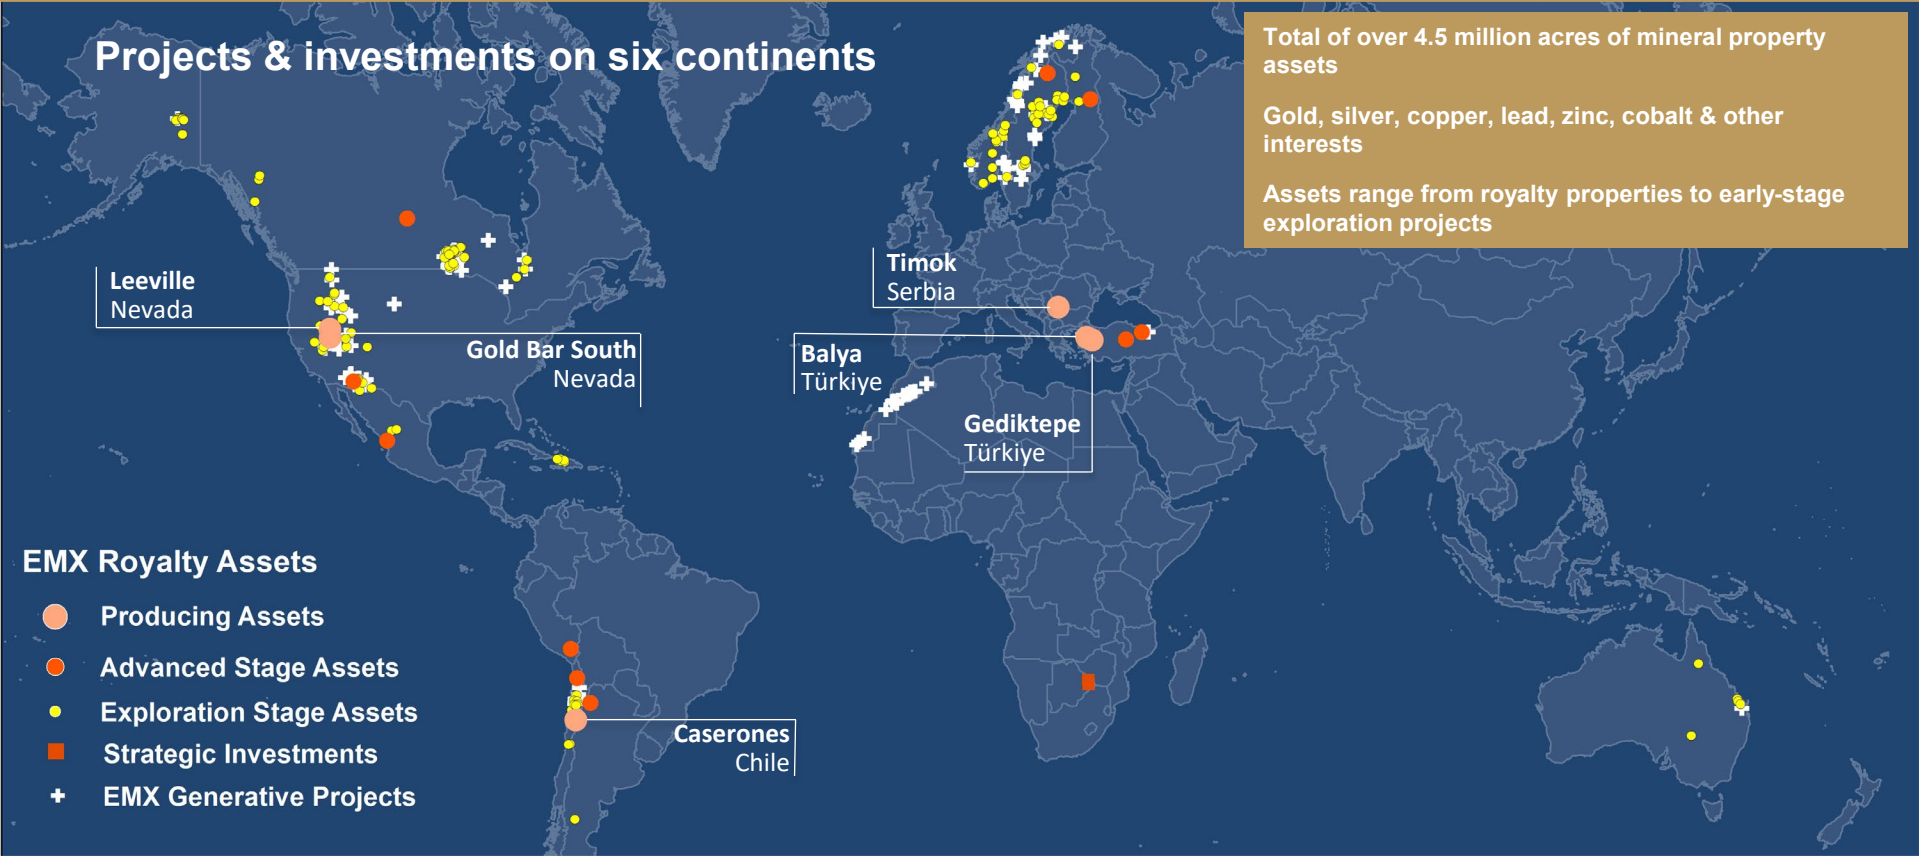

Unless otherwise indicated, all resource estimates, and any reserve estimates, included or incorporated by reference in this presentation have been, and will be, prepared in accordance with Canadian National Instrument 43-101 Standards of Disclosure for Mineral Projects ("NI 43-101") and the Canadian Institute of Mining, Metallurgy and Petroleum Definition Standards for Mineral Resources and Mineral Reserves ("CIM Definition Standards"). NI 43-101 is a rule developed by the Canadian Securities Administrators which establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects.

Canadian standards, including NI 43-101, differ significantly from the requirements of the SEC, and reserve and resource information contained or incorporated by reference into this presentation may not be comparable to similar information disclosed by U.S. companies. In particular, and without limiting the generality of the foregoing, the term "resource" does not equate to the term "reserves". Under SEC Industry Guide 7, mineralization may not be classified as a "reserve" unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. SEC Industry Guide 7 does not define, and the SEC's disclosure standards normally do not permit, the inclusion of information concerning "measured mineral resources", "indicated mineral resources" or "inferred mineral resources" or other descriptions of the amount of mineralization in mineral deposits that do not constitute "reserves" by U.S. standards in documents filed with the SEC. U.S. investors should also understand that "inferred mineral resources" have a great amount of uncertainty as to their existence and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an "inferred mineral resource" will ever be upgraded to a higher category. Under Canadian rules, estimated "inferred mineral resources" may not form the basis of feasibility or pre-feasibility studies except in rare cases. Investors are cautioned not to assume that all or any part of an "inferred mineral resource" exists or is economically or legally mineable. Disclosure of "contained ounces" or "contained pounds" in a resource is permitted disclosure under Canadian regulations; however, the SEC normally only permits issuers to report mineralization that does not constitute "reserves" by SEC standards as in-place tonnage and grade without reference to unit measures. The requirements of NI 43-101 for identification of "reserves" are also not the same as those of the SEC, and any reserves reported by us in the future in compliance with NI 43-101 may not qualify as "reserves" under SEC standards. Accordingly, information concerning mineral deposits set forth herein may not be comparable to information made public by companies that report in accordance with United States standards.

Statement of Qualified Person

Mr. Michael Sheehan, CPG, a Qualified Person as defined by National Instrument 43-101 and Employee of the Company, has reviewed, verified, and approved disclosure of the technical information presented in this document.

Global Asset Portfolio

Revenue Growth

¹ Adjusted revenue and other income and adjusted royalty revenue are non-IFRS financial measures with no standardized meaning under IFRS and might not be comparable to similar financial measures disclosed by other issuers and are defined by EMX by including in revenue related to the Company's effective royalty on Caserones. Refer to the "Non-IFRS financial measures" section of the Company's annual MD&A for the year ended December 31, 2022 for more information on non-IFRS financial measures.

Revenue *(continued)*

Revenue from Producing Royalties

- Leeville royalty: >\$22.7M in gross revenue plus \$18.5M from Barrick Gold settlement
- Caserones royalty: >\$17.6M in adjusted revenue and >\$12.0M in after-tax cash flow since 2021
- Gediktepe royalty: >\$7.8M in revenue since 2022
- Timok royalty: >\$7.6M in revenue in 2023 (includes past payments)
- Royalty payments from Balya and Gold Bar South

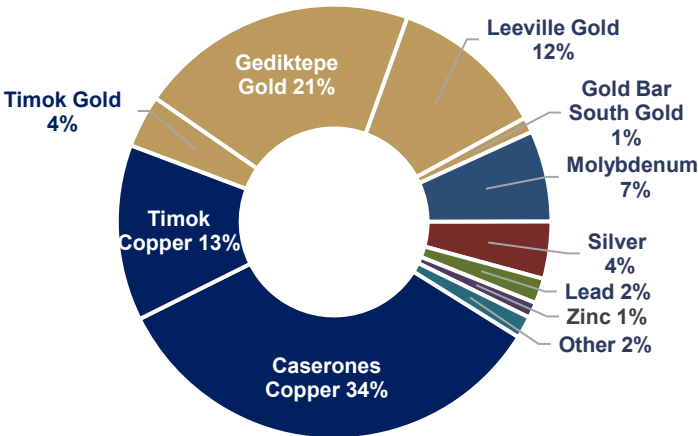

Adjusted Revenue and Other Income - Q3 2023

Other Revenue Payments

- \$3M milestone payment for Parks Salyer in 2022
- \$4M milestone payment for Gediktepe received in Q3 2023
- Pre-production cash payments and dividends from >50 other deals

Adjusted Royalty Revenue - Q3 2023

¹ Adjusted revenue and other income and adjusted royalty revenue are non-IFRS financial measures with no standardized meaning under IFRS and might not be comparable to similar financial measures disclosed by other issuers and are defined by EMX by including in revenue related to the Company's effective royalty on Caserones. Refer to the "Non-IFRS financial measures" section of the Company's annual MD&A for the year ended December 31, 2022 for more information on non-IFRS financial measures.

² Adjusted Revenue up to September 30, 2023

Flagship Producing – Long Life Copper Royalties

Caserones – 0.8306% NSR

- Operator: **Lundin Mining**
- Jurisdiction: **Chile**
- Long-life asset: **Until 2040¹**
- 9m 2023 revenue: **US\$7.03M**
- Resource: **Copper-Molybdenum**
- Near-term catalyst: **Significant untapped exploration potential**
- Royalty Area: **166km²**
- Additional Information: **Lundin Mining acquired 51% stake in Caserones in 2023 for \$950M**

Timok – 0.3625% NSR

- Operator: **Zijin Mining**
- Jurisdiction: **Serbia**
- Total revenue: **US\$7.69M**
- Resource: **Copper-Gold**
- Near-term catalyst: **Lower Zone Copper-Gold Porphyry could dramatically extend project life**
- Royalty Area: **123km²**
- Additional Information: **Royalty portfolio in Timok Magmatic Complex from royalty generation & purchase**

¹ Per Lundin Mining NI 43-101 released July 2023
Note: Adjusted Revenue up to September 30, 2023.

Flagship Producing – Precious, Base, & Battery Metals

Gediktepe – 10% NSR oxide and 2% NSR sulfide

- Operator: **Lidya Madencilik (Private)**
- Jurisdiction: **Turkey**
- Long-life asset: **11-year mine life¹**
- 9m 2023 revenue: **US\$4.06M**
- Resource: **Gold-Silver**
- Near-term catalyst: **Development decision for underlying sulfide deposit**
- Royalty Area: **20km²**
- Additional Information: **10% NSR on oxide gold-silver deposit and 2% NSR on underlying polymetallic VMS deposit**

Leeville – 1.0% GSR

- Operator: **Nevada Gold**
- Jurisdiction: **Nevada, USA**
- 9m 2023 revenue: **US\$1.97M**
- Resource: **Gold-Silver**
- Near-term catalyst: **Continued production from a world-class deposit**
- Royalty Area: **8km²**
- Additional Information: **>US\$22.7M in royalty revenue since acquisition (not including Barrick settlement)**

Balya – 4.0% NSR

- Operator: **Esan (Private)**
- Jurisdiction: **Turkey**
- 9m 2023 revenue: **US\$0.73M**
- Resource: **Lead-Zinc-Silver**
- Near-term catalyst: **Continued expansion of project and ramp up of production in 2024**
- Royalty Area: **16km²**
- Additional Information: **Royalty asset from royalty generation**

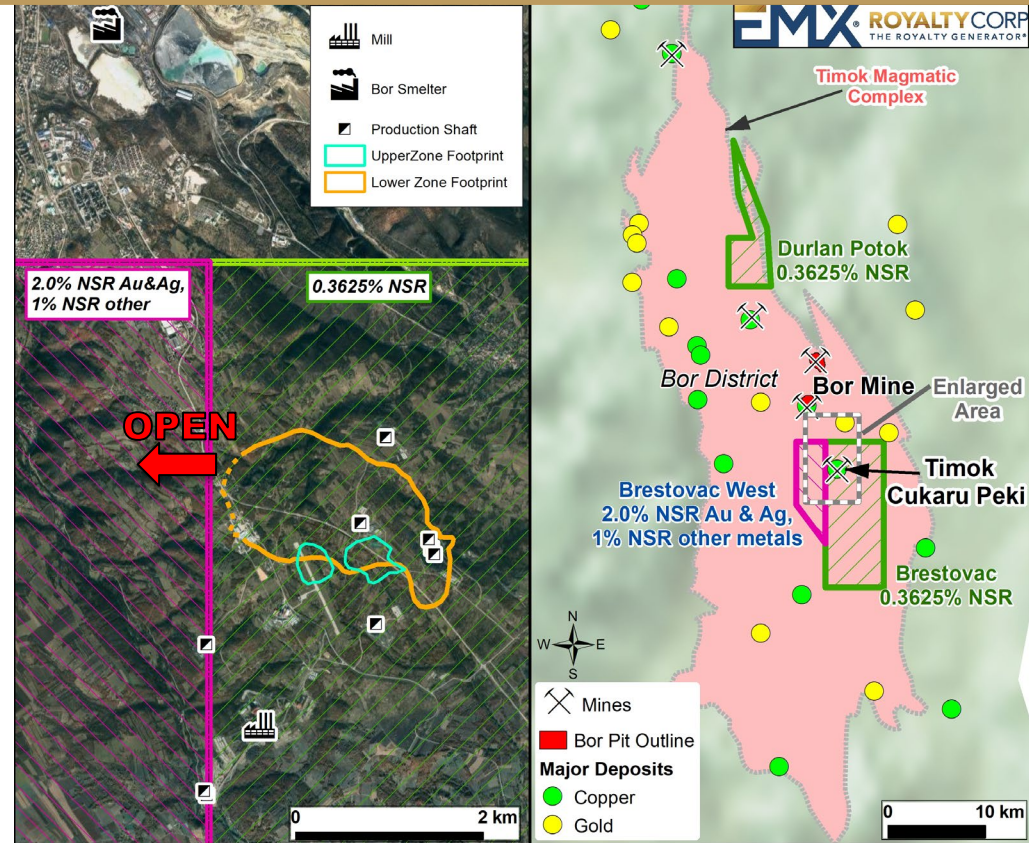

¹ Per 2019 Prefeasibility study with MI&I Resources and P&P Reserves

Cukaru Peki – Zijin Mining

Serbia

- **0.3625% NSR** royalty over the Timok Project and the Cukaru Peki discovery
- Total revenue: **US\$7.6M**
- Royalty area: **123 Km²**
- Royalty portfolio in Timok Magmatic Complex from royalty generation & purchase
- Growth of Timok Lower zone trends towards Brestovac West 1%-2% NSR
- Sept 2023 Zijin announced an additional investment of \$3.8 billion in the lower zone of Timok

Note: Adjusted Revenue up to September 30, 2023.

Total P+P	886,361	0.31	0.010	2,717	94

From NI 43-101 Technical Report on the Caserones Mining Operation July 13, 2023 and Lundin Mining news release dated February 8, 2024. The Caserones Mineral Resources and Reserves given above are presented on a 100% basis, and were prepared under the supervision of, and verified by, Cole Mooney, P.Geo., Director, Resource Geology, and Arkadiusz Tarigan, P.Eng., former Director, Reserves and Mine Planning. Both Mooney and Tarigan are Qualified Persons as defined under NI 43-101.^{CL1} Full notes in appendix

Caserones – Exploration Upside

Copper-Molybdenum Mine in Chile

- Large royalty footprint in a highly prospective porphyry copper district
- Lundin states \$14.7M and 12,900 meters of drilling slated for exploration in 2024 – the largest exploration program since 2013
- Significant upside potential:
 - Deeper in-pit drilling to define higher-grade breccia zones
 - Drill testing sulfide potential below Angelica oxide resource
 - Numerous satellite target areas

Advanced Royalty Projects

Diablillos – 1.0% NSR

- Operator: **Abrasilver**
- Jurisdiction: **Argentina**
- Long-life asset: **11-year mine life¹**
- Resource: **Silver-Gold**
- Near-term catalyst: **PEA completed in 2021 with PFS expected in H1/2024**
- Royalty Area: **114km²**

San Marcial – 0.75% NSR

- Operator: **GR Silver Mining**
- Jurisdiction: **Mexico**
- Resource: **Silver-Lead-Zinc**
- Near-term catalyst: **2023 43-101, deposit is open at depth and along strike**
- Royalty Area: **12km²**
- Additional Information: **2019 NI 43-101 resource reported**

Challacollo – 2.0% NSR

- Operator: **Aftermath Silver**
- Jurisdiction: **Chile**
- Resource: **Silver-Gold**
- Near-term catalyst: **Resource development drilling**
- Royalty Area: **202km²**
- Additional Information: **2021 NI 43-101 resource report**

Viscaria – 1.0% NSR

- Operator: **Copperstone Resources**
- Jurisdiction: **Sweden**
- Resource: **Copper-Iron-Gold**
- Near-term catalyst: **Environmental court decision expected in April 2024**
- Royalty Area: **16km²**
- Additional Information: **2019 NI 43-101 resource reported**

¹ Per 2022 PEA stating “total mine life of approximately 16 years” based off MI&I, but without Reserves and Resources have “no demonstrated economic viability”

Advanced Royalty Projects

Berenguela – 1.0-1.25% NSR

- Operator: **Aftermath Silver**
- Jurisdiction: **Peru**
- Resource: **Silver-Gold**
- Near-term catalyst: **Key objective of completing a PEA during 2024**
- Royalty Area: **70km²**
- Additional Information: **2023 NI 43-101 resource report. Aftermath Silver made early second anniversary payment of US\$2.5M on Berenguela project to EMX**

Yenipazar – 6.0% NPI

- Operator: **Virtus Madencilik**
- Jurisdiction: **Turkey**
- Resource: **Gold-Silver-Copper-Lead-Zinc**
- Near-term catalyst: **Awaiting arrangement of development financing**
- Royalty Area: **93km²**
- Additional Information: **2014 NI 43-101 resource report. NPI royalty that is set at 6% until US\$165 million in revenues are received, after which the NPI converts to a 10% interest**

Parks-Salyer – 1.5% NSR

- Operator: **Arizona Sonoran Copper Company**
- Jurisdiction: **Arizona, USA**
- Resource: **Copper**
- Near-term catalyst: **PFS announced on Cactus Mine project which includes Parks Salyer**
- Royalty Area: **1km²**
- Additional Information: **Ongoing resource delineation**

Franco Nevada – EMX Joint Venture

Franco-Nevada

Summary:

Execution of a binding term sheet with Franco-Nevada Corporation for the joint acquisition of newly created precious metals and copper royalties sourced by EMX.

Details:

- Franco-Nevada will contribute 55% (up to US\$5.5 million) and EMX will contribute 45% (up to US\$4.5 million) towards new royalty acquisitions
- The initial term is for three years, or until the maximum contributions totaling US\$10 million from both companies have been met, and may be extended if mutually agreed by both companies
- Resulting royalties would be split 50/50
- EMX will be responsible for managing all Royalty transaction sourcing, asset analysis, due diligence review, contract negotiations and other related activities in connection with the acquisition of Royalties

Value Drivers in Scandinavia

Summary: Partners advancing battery and precious metals portfolio

Opportunities and Achievements:

- Copperstone Resources is advancing the Viscaria project to production
 - Environmental court decision expected in April 2024
- Kendrick Resources drilled 11.6m @ 2.85%Ni, 1.04%Cu, 0.08%Co at Espedalen^{No1}
- In 2022 District Metals intersected VMS-style mineralization at their Tomtebo project and entered into a JV with Boliden in 2023
- Bayrock Resources intercepts 6.2m @ 1.2% Ni, 2.2% Cu, 0.04% Co from 11m at their Vuostok project^{No2}
- Goldline Resources continued with follow-up base-of-till drilling at their successful Paubäcken gold project
- Mahive Minerals drilled their Michell (Mofjell) project and intercepted 16.85m @ 5.0% Zn, 0.35% Cu, 1.17% Pb from 76m^{No3}

Why invest in EMX Royalty?

- Diversified metals royalty company with sizable copper franchise and large development pipeline
- Unique ability to both acquire royalties or create organically through early-stage exploration
- Unusually strong technical geologic expertise with twenty-year public track record
- Portfolio inflection from developing royalties to consistent royalty cash flow production
- Sophisticated holders & partners including investments by Franco Nevada, and Newmont
- Trading at large discount vs peers at premiums, catalysts to unlock value

Endnotes

NEARBY MINES AND DEPOSITS

^{N1} The nearby mines and deposits provide geologic context for EMX's Properties, but this is not necessarily indicative that the Properties host similar mineralization.

Norway

^{No1} True widths estimated at 90% of reported intercept. Samples were sent to ALS Loughrea, Ireland, an ISO accredited laboratory for assaying, for final chemical analysis using the ALS methods ME-MS61, ME-OG62, and PGM-ICP23. Standards, blanks and duplicates were inserted regularly in the sample stream and checks were done for Nickel and Copper. EMX has not done sufficient work to classify the drill results as compliant with NI 43-101 regulation. However, EMX believes these results to be reliable and relevant.

^{No2} From Bayrock Resources news release dated September 20, 2023. True widths unknown. EMX has not done sufficient work to classify the drill results as compliant with NI 43-101 regulation. However, EMX believes these results to be reliable and relevant.

^{No3} From Mahvie Minerals AB News release dated Nov 21, 2023. True widths unknown. EMX has not done sufficient work to classify the drill results as compliant with NI 43-101 regulation. However, EMX believes these results to be reliable and relevant.

Serbia

^{S1} The 2006 NSR royalty (2% Au-Ag, 1% on other metals) covers the Brestovac West property. The 2013 0.3625% NSR royalty purchase covers the Brestovac and Durlan Potok properties.

Chile

^{CL1} The Caserones Mineral Resources and Reserves given above are presented on a 100% basis, and were prepared under the supervision of, and verified by, Cole Mooney, P.Geo., Director, Resource Geology, and Arkadius Tarigan, P.Eng., former Director, Reserves and Mine Planning. Both Mooney and Tarigan are Qualified Persons as defined under NI 43-101.

Resource notes

- Totals may not sum correctly due to rounding.
- Resource metal price assumption of \$4.20/lb copper.
- Open pit mineral resources are reported within a conceptual pit shell.
- Open pit cut-off grade of 0.13% CuT (i.e., total copper).
- Mineral resources are inclusive of mineral reserves.

Reserve Notes

- Totals may not sum correctly due to rounding.
- Metal price assumption of \$3.65/lb copper.
- Mineral Reserves are estimated using open pit discard NSR cut-off values of:
 - \$11.70/t for ore processed at concentrating and
 - \$3.65/t for ore delivered to the heap leach and SX/EW processing.

^{CL2} LOM from Annual Information Form February 21, 2024
